

Demonstration of Proposed Features

Date	15 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-being
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document summarizes the features proposed during the planning phase of the A Comprehensive Measure of Well-being project and records their implementation and demonstration status. It serves as evidence that the planned functionalities were successfully developed and demonstrated.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Input Interface	Allows users to enter Life Expectancy, Expected Years of Schooling, Mean Years of Schooling, and GNI per Capita.	Implemented	Yes	Responsive Flask-based input form.
2	Data Preprocessing	Cleans the dataset, converts numeric values, and handles missing data before model training.	Implemented	Yes	Successfully prepared the HDI dataset.
3	HDI Prediction Model	Predicts the Human Development Index using a trained Linear Regression model.	Implemented	Yes	Achieved approximately 95% R ² score on the test dataset.
4	Development Category Classification	Classifies the predicted HDI into Low, Medium, High, or Very High categories.	Implemented	Yes	Categories displayed with prediction results.
5	Result Display	Displays the predicted HDI score and corresponding development category on the results page.	Implemented	Yes	Clear and user-friendly results page.
6	GitHub Documentation & Demo	Repository includes source code, README, screenshots, and a demonstration video.	Implemented	Yes	Ready for SmartBridge project evaluation.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
