

Project Demo Planning

Date	15 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-being
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demonstration was prepared to showcase the A Comprehensive Measure of Well-being project. The demonstration explains the problem statement, solution approach, application workflow, live prediction, model performance, and project repository within a 4-minute presentation.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project and explain the importance of predicting the Human Development Index (HDI).	0.5	Boya Sushma
2	Solution Overview	Explain the dataset, technologies used, project architecture, and Machine Learning model.	0.5	Boya Sushma
3	Live Application Demonstration	Demonstrate the Flask web application by entering sample values and displaying the predicted HDI score and development category.	2.0	Boya Sushma
4	Model Performance	Briefly explain the model evaluation metrics and prediction accuracy.	0.3	Boya Sushma
5	GitHub Repository & Documentation	Showcase the GitHub repository, README, screenshots, and demo video link.	0.4	Boya Sushma
6	Conclusion & Future Enhancements	Summarize the project, discuss future improvements, and conclude the demonstration.	0.3	Boya Sushma

Total Duration: 4 Minutes

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly introduce the project, its objective, and the problem it addresses.
2	Solution Overview	Explain the workflow, technologies, and machine learning model used.
3	Live Feature Demonstration	Run the Flask application, provide sample inputs, and show the HDI prediction with the development category.
4	Conclusion & Q&A	Summarize the project, mention future enhancements, and conclude the demo.
